

You can print this guide and bring it with you to your next eye doctor appointment.

Doctor Discussion Guide

This guide can help you start a conversation with your doctor about enrolling in the GATHER2 Clinical Trial. The first step is to talk to your doctor about whether you are eligible to participate.

GATHER2 is a phase 3 trial for Zimura® (avacincaptad pegol). Your participation in GATHER2 may help doctors learn more about and how to treat age-related macular degeneration (AMD) and geographic atrophy (GA). Both you and your doctor can find more information about this clinical trial on ClinicalTrials.gov by searching for NCT04435366.

If your doctor is not participating in GATHER2, you may need to discuss some questions with a healthcare provider who is participating in this trial. For more information, please call **1-833-ZIMURA2** (1-833-946-8722) toll-free at any time. A representative will take your call between 9:00 AM and 5:00 PM Eastern Time, Monday through Friday. If you call after hours or during the weekend, please leave a message and we will attempt to return your call by the next business day.

Below are a few key points to discuss with your doctor during your next visit:

1. Your condition and the trial medication

- GATHER2 is investigating a treatment for a specific kind of age-related macular degeneration (AMD) called geographic atrophy (GA). Is that what I have?

2. GATHER2 trial participation

- What are the possible risks and benefits if I participate?
- What is involved in participating? How will it affect my everyday life?
- Can you help me get in touch with a doctor who is running this trial in my area?
- What options other than participating in a clinical trial do I have?
- If I decide to join, how could this clinical trial help me?

3. Eligibility

- What are the requirements to participate? Am I eligible?

4. Financial costs

- Who can I talk to in order to understand the costs related to the trial and what my health insurance covers?
- How can I find out more information?

GATHER2 IS SPONSORED BY IVERIC BIO, WHICH IS LOCATED IN THE UNITED STATES.

ZIMURA® IS AN INVESTIGATIONAL PRODUCT AND HAS NOT BEEN APPROVED BY THE FDA. SAFETY AND EFFICACY OF ZIMURA® FOR AGE-RELATED MACULAR DEGENERATION AND GEOGRAPHIC ATROPHY HAVE NOT BEEN ESTABLISHED. PLEASE SPEAK TO YOUR DOCTOR ABOUT PARTICIPATING IN THIS TRIAL.
